Subject: Yountville Park Playground Equipment Sub Committee Meeting

The Parks and Community Services Commission have established a playground sub committee. They are asking for the community's help to select and design the replacement playground equipment at Yountville. Park. Some of the Yountville Park playground equipment had to be removed due to equipment liability. A sub committee is being established to:

- Help with the selection of the new playground equipment.
- Potentially help fundraise for the new playground equipment.
- And a community effort to assemble and install the new playground equipment to help reduce costs.

If you are interested in working with your fellow community members in being a part of this worthwhile venture please come join us on Wednesday, July 8th from 6:00 pm - 8:00 pm in the Town Council chambers at Town Hall at 6550 Yount Street. A presentation will be given by Playworld Systems Playground Equipment representative and about possible options.

Please RSVP to Snunley@yville.com or by calling the parks and Recreation Services Department at 944-8712 or join the meeting on July 8, 2009.
