**Subject:** Tell Us What You Think

The Town of Yountville Parks & Recreation Department is conducting a survey to find out what type of recreational activities and park facilities the community would like us to provide. The Town is committed to serving the community's parks and recreation needs and interests. The survey results will guide our future program and facility offerings.

The survey was distributed to all Yountville residences with a self-addressed stamped envelope in the February Recreation, Leisure and Activity Guide. Additional copies are available on the Town of Yountville website at [www.townofyountville.com](http://www.townofyountville.com). Additional survey forms are also available at the Yountville Community Center.

The Town is requesting that residents please complete and return their surveys to the Parks and Recreation Department, 6516 Washington Street, by March 19 to have a chance to win a great prize.
