

CAMPYVILLE goes to Outer Space

JUNE 10 - AUGUST 2

5

SUN WEEK The Sun is at the center of our attention, and our Solar System. Let's orbit our way around this Hydrogen giant as we learn what it takes for it to produce the energy needed to light up our Solar System.

6

OUTER PLANETS WEEK Let's journey past the asteroid belt to the Outer Planets Jupiter, Saturn, Uranus, and Neptune. Here we will learn about these gas and ice giants and what makes them different from the Inner Planets.

7

ROCKET WEEK Let's start week 7 off with a blast! This week we break down all the parts that are used to make the spacecrafts we use today. Ever been a part of a rocket launch? Well, this week you will!

8

ALIEN WEEK Is there Alien life out there? This week we open our eyes to the possibility of Extraterrestrial Life. Lets use our imagination to see what they might look like and what they might do out there in Outer Space. Yountville Summer Camp & Recreation Rewards Day Stories, rewards, treats and crafts. (7/31)

WEEKLY THEME DESCRIPTIONS

WEEK

1

ASTRONAUT WEEK Join us as we learn all about the Astronauts that have ventured space, their duties, as well as the spacesuits that protect them from the elements.

2

MOON WEEK Lets go explore Earth's natural satellite. This week we will learn all things Lunar, from the phases of the moon, to the different eclipses it causes.

3

INNER PLANETS WEEK Also known as the Terrestrial Planets, the four Inner Planets are Mercury, Venus, Earth and Mars. Let's take a closer look at what makes each of these planets unique.

4

STAR WEEK This week we aim high and shoot for the stars in the night sky. Let's learn more about these luminous objects and see how they are formed.
