Online Portal - Permits -

The Town of Yountville is expanding its on-line permitting services to include Residential Rental Registration Program and Encroachment Permits. The expansion of on-line permitting service is part of the Town's on-going efforts to improve customer service through the use of modern technology. Online permitting streamlines the permitting process by allowing for information to be easily submitted on-line and allowing customers to be able to better track the status of their applications. During the transition to this technology, Town staff is available to assist customers in using the on-line permitting system. Town staff will also continue to evaluate which permitting processes can be moved online to improve customer service.

The Town's on-line permitting system can be accessed from <https://yountvilleca.viewpointcloud.com/>.
