**Recordatorio**

**California Permanece en un Sequía Severa**

Debido a un Enero más seco que común y con menos Lluvia anticipado para el resto del invierno, hay certeza que nos permaneceremos en una sequía en 2022.

Cuando usted o su jardinero prenden las sistemas de irrigación, por favor recuerde las reglas del agua:

- **Al encender los aspersores deben revisar el sistema de irrigación para verificar que no hay fugas de agua.**
- **No se puede regar los jardines en una manera que descarge agua en las áreas de paisaje duro como la entrada de coches, aceras, cunetas y la calle.**
- **El horario de irrigación exterior está vinculado a su dirección. Las dirrecciones con un número de casa impar pueden usar la irrigación en los martes y viernes. Las dirrecciones con un número de casa par pueden usar la irrigación en lunes y jueves. No se puede usar la irrigación los otros días.**
- **No se puede irrigar durante el día desde las 10 AM hasta las 6 PM**
- **No se puede regar el paisaje al lado de la acera sin un sistema de irrigación por goteo.**

**Reminder**

**California Remains in Severe Drought**

With an unusually dry January and a less-than-average rainfall forecast for the balance of winter, we are certain to be in a drought the rest of 2022.

As you and/or your gardeners turn irrigation systems back on, please remember the current water rules:

- **Check for leaks after the sprinklers have been turned off during the rain and you are starting them back up again.**
- **No watering outdoor landscapes in a manner that causes runoff onto hardscape surfaces, meaning driveways, sidewalks, gutters, and streets.**
- **Outdoor irrigation schedule is tied to your street address. Odd addresses may irrigate on Tuesdays and Fridays. Even addresses may irrigate on Mondays and Thursdays. All other days are off limits.**
- **No irrigating during the daytime from 10AM to 6PM.**
- **No watering of park medians allowed without a drip irrigation system.**
